Christian López Agardi

Double Degree in Computer Engineering & Business Administration and Management

lopezagardi@gmail.com | +34638157099 | Berlin, Germany | https://christianlxpez.github.io/ | LinkedIn

Summary

Computer Engineering & Business Administration graduate with experience in software development, data automation and analytics. Strong background in Python, SQL and data-driven processes, combined with business strategy and KPI-oriented thinking. Currently strengthening expertise in data analytics and AI through professional certifications to apply data insights, predictive models and automation to real business problems. Motivated to grow in dynamic, international environments.

Education

University of Alicante — Double Degree in Computer Engineering & Business Administration and Management — 2017-2025

HWR Berlin — Double Degree in Computer ENgineering & Business Administration and Management — 2021-2022

Experience

INHUB — Alicante, Spain
Software Developer — 2022 - 2024

- Developed Python scripts for automated web scraping and data extraction.
- Designed automated data storage solutions using databases and Excel, reducing manual work.
- Improved data processing efficiency through automation workflows.
- Led small projects, ensuring deadlines, task coordination and KPI achievement.

Projects

Automated Data Extraction & Storage System

- Built a Python-based system for daily automated data extraction.
- Centralized multi-year historical data into a single database.
- Eliminated manual data handling and improved data accuracy.

PawLife - AI powered Mobile Application

- Developed a hybrid mobile application focused on pet wellbeing.
- Integrated intelligent algorithms to generate personalized health plans.
- Responsible for both technical development and business strategy.

Skills

Software Development
Python (Automation; Web Scraping; Data Processing), React Native, Node.js, JavaScript, CSS, Java, HTML, C/C++

Data & Analytics
SQL, Microsoft Excel, Data Automation & ETL, Firebase, Power BI (in progress)

AI & Machine Learning
Machine Learning fundamentals (in progress)

Business & Management
Project Leadership, Strategic Planning, KPI Tracking & Reporting, Cross-functional teamwork

Certifications

First Certificate in English (B2) — October 2019
Cambridge

No-Code AI Agent Builder (n8n) — October 2025
Simplilearn

Microsoft Power BI Data Analyst Professional Certificate — In progress | Jan - Feb 2026
Coursera

Machine Learning Specialization — Planned | March 2026
Andrew Ng

Languages

Spanish	Hungarian	English	German	French
Native	Bilingual	B2	A1-A2	A2

Sports

Athletics - Triple Jump & Long Jump
