

Christian López Agardi

AI Engineer · Automation & Data · Business Intelligence · Tech & Business Hybrid Profile

✉ lopezagardi@gmail.com ☎ [+34 638 15 70 99](tel:+34638157099) 📍 Alicante, Spain 🌐 [Portfolio](#) [LinkedIn](#)

Summary

Computer Engineering & Business Administration graduate with hands-on experience building automated data extraction and processing systems in Python for AI-driven projects. Strong combination of technical and business mindset: able to understand both how systems work and how data creates business value. Interested in AI, automation and business intelligence, with a proactive and fast-learning attitude. Comfortable working both independently and as part of a team, with problem-solving skills and the ability to adapt quickly to new technologies and environments.

Education

University of Alicante Dual Undergraduate Degree in Computer Engineering and Business Administration
Alicante, Spain • 2017 - 2025

[Website](#)

HWR Berlin Exchange Program - Dual Undergraduate Degree in Computer Engineering and Business Administration
Berlin, Germany • 2021 - 2022

Experience

INHUB Alicante, Spain
Software Developer / Data Automation 2022 - 2024

- Developed automated Python pipelines to extract, process and structure data from multiple web sources and file formats (CSV, JSON, Excel and text-based datasets).
- Built data transformation workflows that cleaned, filtered and standardized large volumes of information for AI-driven forecasting systems.
- Automated daily ETL processes running on remote servers, reducing manual work and ensuring reliable and scalable data collection.
- Integrated processed data into Excel reporting systems and MySQL databases, maintaining continuously updated historical datasets.
- Worked closely with technical teams, management and clients to adapt data solutions to changing business requirements.

Projects

AI-oriented Data Automation System

- Designed and developed an automated data collection and transformation system using Python, Selenium, SQL and ETL workflows.
- Structured and centralized historical datasets used for predictive analysis and AI-related applications.
- Focused on reliability, automation and scalable data processing.

PawLife — AI powered Mobile Application

- Developed a mobile application focused on personalized pet care recommendations using intelligent decision based systems.
- Designed the application architecture, database structure and business strategy from scratch, using React, Node, Expo and Firebase.
- Combined technical development with product thinking, market analysis and user oriented design.

Skills

🔧 **Automation & Data**

Python, Selenium, SQL, ETL Processes, Data Automation, Excel, Power BI, Data Visualization

🔗 **AI & Technology**

AI Fundamentals, ML Basics, API Integrations, Process Automation

💰 **Business & Product**

Business Analysis, KPI Tracking, Problem Solving, Product Thinking, Cross-functional Collaboration

Certifications

No-Code AI Agent Builder (n8n)	October 2025
Simplilearn	
Microsoft Power BI Data Analyst Professional Certificate	In progress
Coursera	
Machine Learning Specialization	Planned June 2026
Andrew Ng	

Languages

Spainsh	Hungarian	English	German	French
Native	Native/Bilingual	Professional (B2)	Basic	Basic
